The agitation of Hornbeck and his folowers and the statements that the peoto were forming organizations to take and in the reservations regardless of he drawing, has raised a serious question among the people of Oktahoma. It is estimated that fully one-half of the scople who anticipate taking claims in the new country regardless of the kind of un opening, yet preferring an old-fush oned horse race, have the opinion that the drawing plan is illegal. Many arrorneys think the same thing and it has seen openly talked on the strets among the prospective settlers.
